

Palm Portable Keyboard Bluetooth Adapter Manual

hardware rev. 2.0 2022-06-10

This product is a DIY Bluetooth adapter for the Palm Portable Keyboards (PPK), so you can use it with any phone, tablet or laptop that has Bluetooth 4.0 or later.

How to use:

Plug the adapter onto the Palm Portable Keyboard, it automatically powers on. Search it on your phone or PC's Bluetooth settings, it should show up as "Palm Keyboard". Pair it and it will work.

If the keyboard is idle for 30 minutes, the adapter will enter sleep mode. Press any key to wake it up.

LED Functionality:

- Green + Red LED constant on: The adapter is handshaking with the keyboard.
 - If it is stuck at this state for more than 3 seconds, it means the adapter is not communicating correctly with the keyboard. Please consider the following possibilities:
 - ◆ The adapter is not seated properly, please re-seat the adapter, or check the contacts visually.
 - ◆ The keyboard may be broken and not responding to the handshake.
 - ◆ The adapter may be low on battery, try to charge it for a while.
- Green LED fast flashing: Bluetooth pairing mode.
- Green LED slow flashing: Paired to the host device, normal usage.
- Blue LED on: charging.
- Blue LED off: charge complete.
- Red LED one flash: battery is below 20%.
- Red LED dual flash: battery is below 15%.
- Red LED triple flash: battery is below 10%.
 - (Please recharge as soon as Red LED starts flashing, to maintain the health of the battery.)
